COMBAT STRATEGY

Fey Step Flank: You are a heavy tank, but he has a trick most armored fighters don't: teleportation. Use Fey Step to bypass a frontline of enemies and appear directly next to their leader or spellcaster, putting 18 AC in the enemy's backline, you force them to turn around and deal with you,

Shield Guardian: Vem is most effective when he is standing shoulder-to-shoulder with a teammate. Use your REACTION to impose disadvantage on any attack targeting your ally. Between your AC and this ability, you make your softer friends harder to hit.

War Pick Pin: With +4 Athletics you are excellent at controlling enemy movement. Use your Action to Grapple or Shove an enemy. If you Shove an enemy prone, your melee allies gain Advantage on their attacks. If you Grapple, the enemy can't attack or move to chase your backline.

Tactical Advice: Survival Instincts. You are the only person who can reliably take a hit. If the party is retreating, You should be the last one out, using high AC to "plug" narrow escape routes and save the day.
